La IUPAC con el apoyo de las NACIONES UNIDAS a través de la UNESCO han declarado al 2011 : ***Año Internacional de la Química.***

VISIÓN PARAGUAY

Incentivar a los ciudadanos del Paraguay a sentir y vivir su lugar en el Planeta, con un sentido de pertenencia y preservación de los recursos naturales.

Inculcar y emplear la ciencia como mecanismo de inclusión social y desarrollo en todos los niveles.

Impulsar la consolidación científica y tecnológica del Paraguay

Women sharing a chemical moment in time

A CHEMICAL HANDSHAKE AROUND THE WORLD

Women from 37 countries shared a chemical moment in time on 18 January. This unique networking event marked the start of the International Year of Chemistry and celebrated the centenary of Marie Curie's Nobel Prize for Chemistry. Participants reflected on the current landscape for women in chemistry; this was made poignant by the results of a UK survey, which found that boys are twice as likely as girls to want a scientific career (see page 4). Breakfasts started in New Zealand and Australia, and cascaded around the world through different time zones. Groups used Skype and social media to link up with other countries in similar time zones, and many organisers commented to RSC News on the value of this as a networking tool. Many groups hope to hold similar events in the future and thanked Mary Garsen from the University of Queensland, Brisbane, for coordinating the meetings.

01. LONDON

London's meeting generated many stories of positive experience as female scientists from the UK, India and Beijing shared their views and inspirations. Vivian Wing-Wah Yam of Hong Kong University relayed a valuable message from her secondary school biology teacher, who constantly reminded her to "Enjoy your work and respect your work". Chair of the meeting, Helen Fielding, urged young women scientists to "Be bold and look for a big challenge. Trust your instincts and never be afraid to ask for advice". The videos can be seen online. www.rsc.org/womenandbreakfast See page 4 for more details.

01. LONDON

02. LIVERPOOL

02. LIVERPOOL

Over 30 women came together at the Liverpool John Moores University to discuss how to encourage more women to take up careers in chemistry.

03. BEIJING

The meeting in Beijing was co-organised by the RSC, and linked to events in Brisbane and Singapore. The former Vice-Chairman of the Standing Committee of the National People's Congress, Madam Gu Xuhuan, RSC chief executive, Richard Pike, and the youngest female Academician of the Chinese Academy of Sciences, Vivian Wing-Wah Yam, gave keynote addresses to the meeting.

03. BEIJING

04. TAIWAN

The breakfast in Taiwan linked to Singapore and Brisbane via Skype. Attendees are now keen to use Skype as a more regular means of scientific networking.

04. TAIWAN

05. ROTTERDAM, NETHERLANDS

The 20 women who work at Huntsman in Rotterdam came together to celebrate IYC and discuss the role of women in their company.

05. ROTTERDAM

06. MELBOURNE

07. PRAGUE

08. UTRECHT

09. ASUNCION

10. PERTH

11. KUWAIT

12. MILTON KEYNES

13. TENNESSEE

06. MELBOURNE, AUSTRALIA

Helping to kick-start the 'Mexican Wave' of breakfasts from Australia, the Commonwealth Scientific and Industrial Research Organisation (CSIRO) hosted the event in Melbourne.

07. PRAGUE, CZECH REPUBLIC

Distinguished female chemists took part in a panel debate at the headquarters of the Academy of Sciences of the Czech Republic. The breakfast meeting then linked up with the Polish Academy of Sciences in Krakow.

08. UTRECHT, NETHERLANDS

Students, lecturers, alumni and teachers from the area attended the networking event at Hogeschool (University of Applied Sciences), Utrecht. This linked to events in Gelsenkirchen, Germany, and Cairo, Egypt.

09. ASUNCION, PARAGUAY

Chemists from all areas of the profession connected to Brisbane, Canada, Mexico and Peru from the Information Center of the United Nations in Asuncion.

10. PERTH, AUSTRALIA

Western Australian Chief Scientist, Lyn Beazley (pictured in the centre) opened the event in Perth, which linked to female chemists in Brisbane, Taipei, and Singapore.

11. KUWAIT

Many female chemists at the networking breakfast in Kuwait enjoyed the city scene from the impressive Kuwait Towers.

12. MILTON KEYNES, UK

Chemists at the Open University celebrated the chemical handshake with links to the National Physical Laboratory, Liverpool John Moores University and the University of Lisbon.

13. OAK RIDGE, TENNESSEE, USA

Women from the Oak Ridge National Laboratory networked with students, teachers and post-docs in Philadelphia.

IYC 2011
ACTIVITY

Activity by [Norma Caballero](#) | added on Jan 04, 2011 | Paraguay

Sponsor(s): Facultad de Ciencias Exactas y Naturales - UNA,
Association of Students of Pure Chemistry and the College of
Chemistry of Paraguay

Paraguay is joining to the Women Sharing a Chemical
Moment in Time activity which is an IYC activity designed to
bring chemistry women together worldwide for a breakfast
meeting. This will be held on Tuesday January 18th, 2011.

The Department of Chemistry, Faculty of Exact and Natural Sciences-
UNA, the Association of Students of Pure Chemistry and the College
of Chemistry of Paraguay is organizing a round table breakfast next
January 18th, with the aim of discussing aspects such as education,
research, innovation, excellence, communication, culture in different
areas in which chemistry's contribution is specially relevant. The
event will be coordinated by the National Node. If you have questions
about this event, please contact at aiq2011py@gmail.com or
norbc37@gmail.com.

MBA'EMOAMBUEKUAA ARAPY ARY (Año Internacional de la Química)

MBA'EMOAMBUEKUAA ÑANDE REKO - ÑANDE RAPERÁ (Química Nuestra Vida - Nuestro Futuro)

El AIQ 2011 presenta una oportunidad única para promover y celebrar los progresos en todos los aspectos benéficos de la Química. La influencia del AIQ 2011 se extenderá más allá de los eventos programados para este año. El año 2011 será el punto desde el cual los Químicos podrán reenfocarse en un mundo ambientalmente sustentable donde todos podamos vivir responsablemente.

Día Mundial del Medio Ambiente

Jornada Homenaje a Marie Curie 4 de Julio

Concurso de pósters

Dirigido a:

Boletín AIQ Nro 1

Jornada Homenaje a Marie Curie

4 de Julio

Concurso de pósters

Dirigido a:

- * Estudiantes de la media y del ciclo básico
- * Estudiantes de carreras científicas

Objetivos:

- * Despertar el interés por la ciencia en los jóvenes
- * Desarrollar la creatividad en la transmisión de conocimientos
- * Fomentar la investigación histórica en la ciencia.

Los pósters deberán mostrar los aspectos más importantes de la vida de esta mujer, el alcance, las aplicaciones y las repercusiones de su trabajo. También podrán participar trabajos que resalten el papel de la mujer en el desarrollo de la química moderna. Se premiarán los mejores pósters de cada categoría.
